

POSITION SPECIFICATION

POSITION TITLE: Maintenance Technician – Industrial Mechanic/Millwright

LOCATION: New Afton Mine, located 10km west of Kamloops, BC.

Kamloops is a city of 90,000 people, located 350km east of Vancouver. The area provides the opportunity to live and work in a vibrant community with its own University and within easy reach of world class ski resorts, championship golf courses, mountain biking trails, popular recreational lakes and the vineyards of the Okanagan Valley.

New Gold is an intermediate gold mining company. The company has a portfolio of three producing assets and three significant development projects. The Mesquite Mine in the United States, the Cerro San Pedro Mine in Mexico, and Peak Gold Mines in Australia are expected to produce between 380,000 and 400,000 ounces of gold in 2011. The fully-funded New Afton project in Canada is scheduled to add further growth in 2012. In addition, New Gold owns 30% of the world-class El Morro project located in Chile and, in June 2011, New Gold acquired the exciting Blackwater project in Canada.

For further information on the company, please visit www.newgold.com.

KEY RESPONSIBILITIES:

The successful applicant(s) will be responsible for maintenance of fixed equipment throughout the job site, both on the surface and underground. Duties will include, but are not limited to: assisting in the commissioning of new stationary equipment on site, performing required maintenance duties as assigned by planning and supervision, troubleshooting a wide variety of equipment types, assisting with mobile equipment maintenance when required, rebuilding and/or reconditioning spare equipment and components, carrying out prescribed preventative tasks such as equipment lubrication, cleaning, condition monitoring audits, and following proper procedures in recording detail of equipment condition, tasks performed, and resources used.

KNOWLEDGE, SKILLS AND ABILITIES:

The qualified candidate has 3 or more years trade experience working in industrial facilities, has completed Grade 12 or equivalent and is a Certified Interprovincial Industrial Mechanic/Millwright. Preference will be given to individuals that have displayed the ability to work productively in a teamwork-oriented environment under minimal supervision, as well as past experience working in a Mineral process Plant or Underground Mine. Any experience working on rock crushers, conveyor systems, grinding mills, pumps, pipes and other equipment typically used in heavy industry as well as working with computerized maintenance management systems (e.g. SAP, Maximo, JD Edwards) is also an asset.

COMPENSATION: A competitive salary, performance bonus plan and benefits will be provided.
