

New Gold Inc wholly owns and operates the Peak Gold Mine at Cobar. With four (4) main underground ore sources, and an aggressive exploration program, Peak Gold plans to mill 750,000 tonnes of ore in 2008 that will produce between 95,000 and 105,000 ounces of gold and approximately 9.0 – 11.0 million pounds of copper.

## **The Person**

Are you a **Registered Mine Surveyor** with an excellent knowledge of regulations and standards relating to your field, have 3 or more years experience in Underground Metalliferous Mining, a sound knowledge of Vulcan Mining Software and Leica Instruments (or similar), ability to work efficiently without direct supervision and also thrive in a team environment, can display leadership and organisational qualities, have advanced planning and scheduling skills along with an attention to detail and quality assurance.

With four (4) main underground ore sources, and an aggressive exploration program, the key objectives of this position are to optimise the extraction of the known Peak resource through efficient, safe and cost effective mining operations.

## **The Position**

The key responsibilities of this position are to:-

- Provide the services of a NSW Registered Surveyor to our mine site,
- Ensure site compliance with NSW Mines Health and Safety Act & Regulation regarding the DPI as they relate to Surveying,
- Ensure all work is carried out in accordance with site safety procedures and protocols,
- Assist/oversee all aspects of field surveying both underground and surface,
- Assist/oversee all aspects of management reporting,
- Extend and maintain survey control network,
- Assist/oversee Prism monitoring in historical workings for Peak Mine
- Provide mentoring and training to staff at all levels.

You will hold or have the ability to obtain the following qualifications and licences.

- NSW Registered Mine Surveyor
- Current 'C' Class driver's licence
- Senior First Aid Certificate

This opportunity is located in Cobar, a well serviced regional Australian town with the necessary infrastructure to support the community and provide a quality residential lifestyle. The role is based at the Peak Gold Mine within the Mining Department, reporting to the Technical Services Superintendent. An attractive remuneration package, commensurate with your qualifications and experience will apply.
